Activity Data Spreadsheet

Jurisdiction/Grantee Name:		CDBG-R Formula Grant Amount: \$68,076				Date: 05-19-09	
Activity Name	Activity Description	Eligibility (Regulatory or HCDA Citation)	National Objective Citation	CDBG-R Project Budget (\$)	Additional Recovery Funds (\$)	Other Leveraged Funding (\$)	Total Activity Budget
N Kent Street Sidewalk Improvements	Construction of a new 5-foot wide sidewalk adjacent to the Douglass Learning Center on N. Kent Street. The total length of the sidewalk is approximately 200 linear feet. The sidewalk will be constructed behind the existing sidewalk on the School's property. The existing sidewalk behind the curb will be removed and the area restored with topsoil and grass. The majority of the new sidewalk will be concrete, but there will be approximately 20 linear feet of rubber sidewalk panels used next to the large existing trees to minimize the disturbance to the tree roots. ADA ramps with detectable warning surfaces will be constructed at the intersections. Estimated time for construction: 30 days	570.201(c)	570.208(a)(1)(i)	\$32,269	\$0	\$0	\$32,269
Kern Street Sidewalk Improvements (South Side)	Construction of a new 4-foot wide sidewalk on the south side of Kern Street between Gray and Smithfield, a length of approximately 175 linear feet. No sidewalk currently exists at this location. The sidewalk will be constructed of concrete and will be located behind a new concrete curb that will be constructed on the edge of the street. ADA ramps with detectable warning surfaces will be constructed at the intersections. Estimated time for construction: 30 days.	570.201(c)	570.208(a)(1)(i)	\$13,538	\$0	\$8,731	\$22,269
Kern Street Sidewalk Improvements (North Side)	Construction of a new 4-foot wide sidewalk on the north side of Kern Street between Gray and Smithfield, a length of approximately 175 linear feet. No sidewalk currently exists at this location. The sidewalk will be constructed of concrete and will be located behind a new concrete curb that will be constructed on the edge of the street. ADA ramps with detectable warning surfaces will be constructed at the intersections. Due to the existing topography, a small retaining wall will need to be constructed behind the sidewalk and an existing section of chain link fence will need to be replaced. Estimated time for construction: 45 days.	570.207(c)	570.208(a)(1)(i)	\$22,269	\$0	\$20,000	\$42,269
				\$68,076	\$0	\$28,731	\$96,807
