A citizen stated that as of last Thursday, he is the new owner of the property mentioned. He has been working with Mr. Gilpin to try to get ownership for the last two years. A neighboring citizen stated he is not interested in having a night club across the street because of the noise and guaranteed Council would not be either. He is tired of having his windows vibrate until 3:00 a.m. and finding trash cans and beer cans and bottles in his front yard. He has asked them to keep the noise down through the City police and it

hasn't happened yet. The noise has been measured at about 53 decibels by the City police which he understands is a normal voice. If you are trying to work on a computer, watch TV or go to bed, it is like having someone talking right next to you and you can't get anything done. There are other people in the neighborhood who are elderly or sick and he does not think they should have to listen to that.

No further citizens came forward to address Council concerning this issue and the President declared the public hearing closed at 7:27 p.m.

Vice-President Major moved to approve CU-11-582. The motion was seconded by Councilor Willingham.

Vice-President Major asked Zoning Administrator Vince Diem since the applicant already has a CUP and this is to allow expanding to another part of the building, will turning this down not solve the issue brought to us tonight. Mr. Diem stated there is about one incident report per month on file with the Police department regarding the noise particularly on Saturdays evenings. Those predate Council's recently passed ordinance regarding noise.

Councilor Veach asked about the current status of the permits and with ABC. Mr. Diem stated all of the permits have been obtained and the licenses too. ABC has received and approved the expansion for the night club.

The motion to approved CU-11-582 was unanimously approved 8/0.

CU-11-585: Conditional Use Permit – Request of Kenisha Bridgemohan dba Island Delights Caribbean Restaurant, LLC, for a conditional use permit for expansion of an existing nightclub use at 821 North Loudoun Street (*Map Number 134 -05-6*) zoned Highway Commercial (B-2) District.

Doreen Swanson stated she is the property manager for the Fort Collier Terrace Apartments directly behind Island Delights. The tenants did not realize they could call the police department to complain about the noise. The concern is it is already a noisy place and they are going to be allowed to expand it and make it even noisier. Currently, the police are getting about two calls per month on that business and the noise. Many petitions are being passed around the neighborhood by other people that she has not seen. The noise is not only coming into the complex located on North Braddock but it crosses North Braddock Street into a regular housing area as well. She is not sure what can be done but the noise is a terrible problem right now. The back of their building to the fence line is only 25 feet and there is 50 feet from the fence line to a neighbor's home. It is not a troublesome spot but the music is awful. She presented Council with a petition signed with 49 signatures expressing the concerns with the BOOM-BOOM-BOOM. People come home from work on Friday and Saturday night wanting to put their feet up and 50 feet from their front door is BOOM-BOOM-BOOM until 2:30 in the morning. She stated the tenants do not want to see an expansion until the noise problem is fixed.

John, a tenant at 974 North Braddock Street stated the problem is when the police measure the decibels, they are legal. The whole building has bay doors or garage doors on the back and that is where the noise comes from. It is not the music as much as it is the bass. The thumping will go on for 50 minutes then go away for a time then comes back when you are trying to go to sleep. It is constant. He asked what requirements are given with the permits regarding the structure of the building to isolate the noise. He stated that is the problem. He asked that a requirement be given with the expansion to make it sound proof. I

No further citizens came forward to address Council concerning this issue and the President declared the public hearing closed at 7:38 p.m.

Vice-President Major moved to approve CU-11-585. The motion was seconded by Councilor Willingham.

Councilor Veach stated one of the conditions is all doors and windows stay closed and asked if the large doors will be checked by the officers. Police Chief Kevin Sanzenbacher stated it would.

Councilor Clark asked if there have been a number of complaints in the last few months. Chief Sanzenbacher stated there have not. One was received on November 19th, one on October 9th, and two in September.

The motion to approve CU-11-585 was unanimously approved 8/0.
