PERMISSIBLE FIREWORKS

The Winchester Fire Marshal determines the acceptability of consumer fireworks offered for sale or use within the City of Winchester. The following list of permissible fireworks (listed by item number) is acceptable to the Fire Marshal's Office for storage, use, and/or retail display. A user of permissible fireworks is not required to obtain a fire code permit or be certified as a pyro technician when such use is on private property with the approval of the property owner.

The retail sale of permissible fireworks or use of other than permissible fireworks requires a permit issued by the Fire Marshal. Information about the permit and certification requirements can be found in Chapter 10 of the City Code.

Consumer fireworks (Division 1.4G) that meet acceptable criteria during the annual evaluation and review process are classified through the Virginia Statewide Fire Prevention Code as "permissible fireworks". The State Fire Marshal's Office works with local city and county Fire Officials to evaluate and review items by actively comparing the items to the performance criteria found in the American Fireworks Standards Laboratory (AFSL).

NOTICE: City code states it shall be unlawful for any person, firm, or corporation to transport, store, possess, sell, offer for sale, expose for sale, or to buy, use, ignite, or explode any fireworks that are not permissible fireworks as approved by the Fire Marshal. The sale of permissible fireworks to persons under the age of 18 shall be prohibited unless the person is accompanied by a parent or legal guardian. Violations of the Fire Prevention Code are a Class 1 misdemeanor punishable by up to 12 months in jail, a fine of up to \$2,500, or both.

Fireworks added to this list after **May 26, 2020**, will be shown in **BLUE** at the end of the list. Deletions will be shown in **RED**.

Any questions about permissible fireworks in the City of Winchester should be directed to the Winchester Fire Marshal's Office at (540) 662-2298
