(with FIFTY eggs!)

### A Letter from a Past Scholarship Recipient

I would like to express my appreciation for your support, encouragement, and willingness to grant me financial aid when I was applying for the 2018 Pipe Organ Encounter in Philadelphia. I would also like to thank you for the \$250 scholarship for my organ lessons. While attending the POE\*, I was privileged to play real pipe organs for the first time in my life and meet many organists and other organ students. It was all together an inspiring and enriching experience that my family and I were very grateful for. I would love to attend a POE every year, if possible.

This year, I am looking forward to attending the POE in St. Louis, MO. I am very excited to see and play the different pipe organs and meet new organists and organ students as well as those I met last year. I wish to continue enriching myself as well as others.

Very truly yours,

Joseph Riordan  
(age 14)

\* A Pipe Organ Encounter (POE) is a weeklong workshop presented by a chapter of the American Guild of Organists at which high school students receive lessons and experience a variety of pipe organs and organ performances and classes.
