OVERVIEW

The City of Winchester's 2016-2020 Strategic Plan is a guidebook that will direct the City's pursuance of its vision and desired goals. This strategic plan is the product of months of diligent work by the Winchester Common Council and City staff and provides a benchmark in where we currently are, where we would like to be and how we plan to get there.

The Strategic Plan is designed to:

- Provide guidance in future policy development and leadership decision-making
- Facilitate stability in the administration and community
- Provide City staff with direction in the implementation of the City's goals

The City of Winchester's 2016-2020 Strategic Plan highlights activities and accomplishments that City departments will complete during the next five years. The following pages outline the four Strategic Plan goals and their corresponding actions, responsible departments and target date for completion. The goals and objectives outlined in this plan are intended to help achieve the community vision for 2028. These targets were created at the department level and represent the means by which the City will reach its Strategic Plan objectives and strategies successfully.

Winchester is characterized by its long history and well-preserved architecture; vibrant and growing downtown; small-town charm and big-city amenities; friendly people; the Shenandoah Apple Blossom Festival and close proximity to outdoor recreation, northern Virginia and Washington, D.C. Winchester is considered one of the fastest growing suburbs of Washington, D.C. (Washingtonian Magazine, 2015) and has been nationally recognized by AARP and Kiplinger's Personal Finance as a great place to retire. It was also recently named one of the top 15 best places to start a business in Virginia (NerdWallet, 2015) and number 15 (out of 200) in Forbes' list of Best Small Places for Business and Careers.

We will realize our vision by respecting and building on our heritage, leveraging our assets and making wise choices in guiding sound growth and investment.

BUDGETING PROCESS AND THE PLAN

Strategic planning and budgeting are integral components of good management. The strategic plan charts direction, while the budget provides resources to implement the plan. A strategic plan neither grounded in fiscal reality nor linked to the budget would be only a dream. On the other hand, resource allocation without strategic thinking would be shortsighted and unresponsive to future conditions.

Strategic planning guides the budget process. It establishes and affords management an opportunity to reevaluate existing allocations of funds. The City will develop strategies and action plans that detail what will be accomplished to achieve strategic planning goals and objectives each year. These action plans, together with performance measures, provide the strongest links between the operating and capital outlay budgets.

Planning and budgeting are interactive. Assumptions about available resources impact what can be achieved in the plan; the plan also sets priorities for resource allocations, including financial and other resources. Since government funding continues to be limited, strategic planning helps the City strive to "do more with less" while remaining focused on results.

GOAL I

Encourage sustainable economic growth and partnerships through business and workforce development

OBJECTIVE A

Increase effectiveness of workforce development efforts by building on existing collaborative partnerships between the City and local organizations

The City of Winchester continues to hear from our largest advanced manufacturing employers about the continuing need for a workforce with technical skills.

The City recognizes the importance of having a ready, versatile workforce to create a diverse pool of potential employees with the requisite skills our employers need. The City should help facilitate a steady supply of local workers who have the necessary education, including reading, math and writing. These skills will allow employers the opportunity to provide on-the-job technical training and prepare employees for a long career within their organization.

Allocating appropriate resources to promote Winchester as a place with many advantages to those looking to move or expand their business will help promote why Winchester is a place of opportunity. The City needs to improve how it conveys this message to potential businesses, workers and executives.

- Meadow Branch Avenue
- Ward Plaza
- Berryville Avenue
- National Fruit
- Old Town

Although these sites will continue to be the emphasis of redevelopment or development, the City will target other focus areas for future commercial, residential and mixed-use development. The timing on many of these projects is driven by the market and the participation of current private property owners. However, by keeping these projects in the forefront, it empowers the City to take advantage of or encourage development opportunities as they arise.

Including sites which have begun the revitalization process in the Strategic Plan allows City staff to continue supporting future growth and investment.
