FINAL REPORT**

Special Inspection Engineer of Record:

Inspection reports numbered _____ to _____ and test reports numbered _____ to _____, all submitted prior to this Final Report, form a basis for, and are to be considered an integral part of this final report.

In my professional opinion, the special inspections specified for this project and itemized in the State of Special Inspections submitted for permit has been completed. The building elements subject to special inspections have been found to be in compliance with the City of Winchester approved documents and project specifications. Any violation of the *Virginia Uniform Statewide Building Code* observed in the conduct of special inspection services were brought to the attention of the appropriate registered design professional of record, the City of Winchester, and the owner for resolution and the resolution was approved by the City of Winchester.
