**GAS PIPING CERTIFICATION**

**Owner's Name:** \_\_\_\_\_  
**Address:** \_\_\_\_\_  
**Permit #:** \_\_\_\_\_

**Drawing and installation must comply with the following:**

- Drawings must be neat, using straight liner for piping or tubing lengths (include vertical and horizontal distances) and show appliance demands.
- Piping and tubing shall be sized in accordance with VFGC 2012
- Specify material used for the piping system.
- No piping shall be smaller than the gas inlet on the appliance it serves.
- Two psi piping systems using a manifold must show the manifold size.
- Spring gauges must read in 1/10<sup>th</sup> pound increments up to a minimum of 3 psi.
- Corrugated Stainless Steel Tubing (CSST) must be installed per manufacturer's installation instructions. You must provide the installation instructions for the inspection.

**Type of piping system:**     2 psi         low pressure         L.P.         Natural gas

**Diagram Gas Piping Here**

**No inspection shall be made to the gas piping system unless this form is filled out completely and signed.**

**Certification Statement:**

This is to certify that I have prepared this plan and it meets the requirements of the Virginia Uniform State Building Code.
