

A scenic photograph of a sunset over a hill. The sun is low on the horizon, creating a warm, golden glow. In the foreground, the dark silhouette of a large evergreen tree is visible on the left. On the right, a church steeple with a cross on top is silhouetted against the sky. A decorative railing runs across the middle ground. The sky is a mix of orange, yellow, and blue.

## BUDGET

The accounts of the City are organized into funds. Of the City's adopted budget, most of the big spending decisions occur within the General Fund.

### General Fund

The fund where the City has the most discretion, the General Fund, has two major sources of funding: general property taxes and other local taxes combined. These two sources make up over 83% of the General Fund budget.

### Capital Improvement Plan

Every year, the City adopts a plan for capital improvements for the next five years. Capital Improvements are projects such as construction of roads and public buildings, traffic systems, park improvements, sewers, water infrastructure, etc.

### OpenGov Budget Tool

An online interactive budget transparency tool that allows users to explore the City's budget in real time. Updated monthly.

### Budget in Brief

A citizen's guide to the general fund budget. Find it online (Finance).
